Ankit Kumar

Computer Science Engineer

As a final year undergraduate student of B.Tech in Computer Science & Engineering at Lovely Professional University, I have honed my skills in mobile app development using flutter, and am now focused on developing cross-platform applications. With my enthusiasm and drive, I aim to take my technical abilities to the next level and create innovative solutions that solve real-world problems.

- Wrote clean, efficient, and well-documented code.
- Ensured final product met specifications.

Technical Content Writer
GeeksforGeeks.org
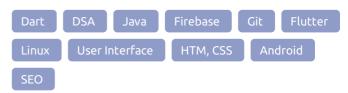

09/2020 - Present   *Remote*

At geeksforgeeks, I am responsible for the compilation and improvement of technical articles from various domains of computer science. (Part-time gig)

Achievements/Tasks

- Was acknowledged as the bronze-level writer for publishing over 60 articles.
- Some of my most viewed articled have over 60K views.
- Wrote over 40 articles explaining the basics of flutter (Widgets, Layouts, Projects).
- Have found improvements in over 170 programing articles.

SKILLS

Dart DSA Java Firebase Git Flutter Linux User Interface HTM, CSS Android SEO

PROJECTS

Cross Platform Expercise Timer App (02/2022 - Present) ↗

- Made an exercise timer application ExerTime in flutter which functions like a native app or a PWA.
- It has the functionality to select the no. of sets and reps. of an exercise along with time for each rep and break in between. Then it accordingly displays a timer for each rep and set and also plays sound at each interval.
- Tech Stack: Flutter, Dart, Firebase

Flutter World Time App (06/2022 - Present)

- A flutter project to show times of different locations of the word. It uses world time API to fetch data in JSON.
- Tech Stack: Flutter, Dart, JSON
- Flutter-World-Time-App

Potfolio : Progressive Web App (06/2021 - 07/2021) ↗

- Made personal portfolio progressive web app ankitkumar.app. It is basically a website that can function as a native application on mobile and desktop.
- It displays my profesional information along with my projects and blog.
- Tech Stack: HTML, CSS, Javascript & Bootstrap, Firebase

CERTIFICATIONS

Complete Interview Prep (05/2021 - Present)
In this course offered by geeksforgeeks, I learned object-oriented programing, DSA, Object-Oriented Analysis and Design and CS subjects like OS, CN, DBMS, etc

Programming with C and C++ (01/2020 - 02/2020)
This course was offered by Internshala in which i learned the fundamentals of object-oriented programing. In the end, I created a project in the C++ College management system.

Flutter & Dart The Complete Guide (01/2020 - Present)
The complete course for dart and flutter.
